

D/FMSAC

As mentioned in the memorandum from [REDACTED] to various addressees including DD/S&T (a copy of which I gave to Doug this morning), we have been asked to submit comments on the monthly COMOR reports providing status of overhead photographic reconnaissance. The question is whether COMOR may eliminate this monthly report or whether it should be modified in some way. I have attached four copies of the COMOR reports on this subject covering the period Oct 66 - Jan 67. These are the DD/S&T file copies. You will note that OSA is listed as

25X1A

(over)

a separate addressee for comments, but it would seem that OSI, OEL, FMSAC, and OSP would be logical sources for comments too. Since this is a COMOR matter, we have referred it to you.
